

### **CERTIFIED INFORMATION SYSTEMS AUDITOR**

Course Code: CISA; Course Duration: 5 Days; Instructor-led

## WHAT YOU WILL LEARN

The CISA Exam Preparation course is an intensive, five-day review program designed to prepare professionals for the Certified Information Systems Auditor™ (CISA) exam. The course focuses on the key points covered in the CISA Review Manual 26th Edition and includes class lectures, group discussions, exam practice and answer debrief. The course is intended for individuals with familiarity with and experience in information systems auditing, control or security This course is provided in partnership with Sapience Consulting Pte. Ltd.

### **AUDIENCE**

Individuals who audit, control monitor and access information technology and business systems.

# **PREREQUISITES**

There are no prerequisite requirements for taking the CISA Exam Preparation Course or the CISA exam; however, in order to apply for CISA certification, the candidate must meet the necessary experience requirements determined by ISACA. There are no pre-course reading materials needed for this course although candidates are encouraged to have the ISACA CISA Review Manual available.

### **METHODOLOGY**

This program will be conducted with interactive lectures, PowerPoint presentation, discussion, and practical exercise.

## **COURSE OBJECTIVES**

Participants in the CISA Exam Preparation course will be provided instruction designed to provide the following:

- An understanding of the format and structure of the CISA certification exam.
- A knowledge of the various topics and technical areas covered by the exam.
- Practice with specific strategies, tips and techniques for taking and passing the exam
- Opportunities to execute practice questions with debriefs of answers
