C. PENGALAMAN KERJAYA
TURUTAN KERJA DAN PENGALAMAN
Consultant and Trainer, BL Digital Sdn Bhd (Jun 2002 – Present)
With an IT career spanning more than 15 years, He has vast experience and knowledge and had served as a Consultant and Specialist across many IT disciplines. From system, database, applications, networking, virtualization and cloud computing, while serving as a contract Trainer and Consultant for various principles such as Microsoft, Red Hat, VMware, Novell, HP and Cirtix, together with training providers.

Director of Management Information System, Infolient Broadband Sdn Bhd (Nov 2007 - April 2009)

Lead Technical Engineer, EDS Ltd, Sydney, Australia (May 2004 - June 2006)
Led a team of engineers in Windows XP rollout for 24,000 laptops and workstations; configured multiple multicast servers for the rollout ensuring efficient ways of deploying Windows XP and deployed multiple applications including but not limited to Oracle 9i,

Microsoft SQL, Teradata SQL, Comsee, Broker GUI, Computerware Application software and applications that run on Windows XP.

Troubleshot and performed problem solving during support work, User Acceptance Test (UAT) and System Integration Test (SIT).

Senior System Engineer, VADS Ltd, Malaysia (May 2001 - Jan 2004)
Managed VADS's mission-critical services such as hosting Internet Information Server (IIS) on Windows 2000, DBS and E-mail (Sendmail) hosting on Redhat Linux. He developed and implemented service monitoring, escalation processes and troubleshooting procedures for VADS's customers such as Surf88.com, E-contribition.com.my, Go-academy.com, Blooming.com.my and Telekom Malaysia. He managed multilevel backup management systems using Veritas NetBackup, VMware and Microsoft Virtual Server software on top of Windows 2000.

Trained VADS engineers on Redhat Linux system and network administration; deployed and implemented Security Policies for VADS base on ISO 17799, International Code of Practice for Information Security Management and managed the first centralized backup strategy using Veritas Netbackup software to cater for all VADS's customers' backup needs.

MIS Manager, Latitude Web Pte. Ltd. (Malaysia) (Mar 2000 – Mar 2001)
Trained Latitude's Web's engineers to deploy and use Sun Solaris Unix at the intermediate level of proficiency; contributed ideas on how to deploy certain technologies for any of the Latitude's Web's clients whether it was computer networking related, software or hardware products.

He created policies for system, network, data backup, disaster recovery, user and resource planning (System hardware and software such as VMware and etc); built and designed a complete network & system infrastructure from basic for Latitude Web comprising Windows 2000, Sun Solaris Unix, Redhat Linux, Microsoft Exchange Servers, Cisco Switches plus Routers and 100 Workstations.

IT Manager, BBDO Malaysia Pte. Ltd (Malaysia) (Nov 1997 – Mar 2000)
Managed system, network and backup management matters; managed the deployment of Microsoft SQL with timesheet management software to improve the billing system to the customers and promoted IT awareness for the public for a non-profitable user group "NT Connect".

D. PENGALAMAN DALAM AKTIVITI LATIHAN BIDANG KECENDERUNGAN DAN KEISTIMEWAAN
The trainer has more than 11 years of experience in developing training modules and delivering training for various companies.

E. PEKERJAAN SEKARANG
Consultant and Trainer, BL Digital Sdn Bhd

MAKLUMAT-MAKLUMAT LAIN

Over the years, he has conducted many programs, some of which include:

MICROSOFT
